

TRUELISORT COMOANY INTRUDUCTION

Smart Sorting Systems | Factory-Direct Manufacturer & System Integrator

Who We Are

TRUELISORT is a **factory-direct manufacturer and system solution provider** specializing in automated sorting and conveying systems for logistics, e-commerce, express parcel, and warehouse operations.

With 14 years of experience in sorting system design, equipment manufacturing, and on-site implementation, we help customers worldwide build **stable, scalable, and cost-effective sorting solutions** tailored to their operational needs.

We do not simply sell machines — **we deliver complete sorting systems**, from planning and layout design to equipment supply, installation guidance, and after-sales support.

What We Do

We provide **end-to-end customized sorting solutions**, including:

- Cross Belt Sorting Systems
- Narrow Belt Sorting Systems
- Put Wall Sorting Systems
- Wheel Sorting Systems
- Conveyor Systems (Belt, Roller, Telescopic)
- DWS (Dimensioning, Weighing & Scanning)
- Integrated Control Systems

Our solutions are widely used in:

- E-commerce fulfillment centers

- Express & parcel hubs
 - Distribution centers (DC)
 - Warehouse automation projects
-

Why Choose TRUELI

Factory-Direct Advantage

- In-house manufacturing and quality control
- Competitive pricing without trading layers
- Flexible customization capability

System-Level Thinking

- Layout design based on your workflow
- Equipment selection based on parcel type & throughput
- Expandable design for future growth

Proven Performance

- Stable operation under high throughput
- Designed for mixed parcels and peak-hour loads
- Reliable components and industrial-grade structure

Global Project Experience

- Serving logistics and e-commerce customers worldwide
 - Familiar with international standards and project coordination
 - English technical documentation and communication
-

Our Typical Project Process

1. **Requirement Analysis**
Throughput, parcel size, layout, budget
2. **Solution Design & Layout**
CAD layout, system flow, equipment selection
3. **Manufacturing & Assembly**
Factory production and internal testing
4. **Delivery & Installation Support**
Installation drawings, online guidance, optional on-site support

5. Commissioning & After-Sales

System tuning, training, long-term technical support

Our Commitment

- Clear technical communication
- Honest recommendations
- Long-term cooperation mindset

We aim to become **your reliable sorting system partner**, not just a one-time equipment supplier.
